

## AVID FLYER & KITFOX POWER

If you have a later model Kit Fox or Avid Flyer and are either tired of the two stroke blues or just prefer a 4 stroke engine to fly behind, Great Plains Aircraft offers a fairly complete firewall forward package for both of these aircraft.

You can install our 2276cc - 80 HP VW direct drive engine kit or 2276cc - 105 HP VW Reduction Drive, engine mount, exhaust system, spinner set and complete cowling set for about the cost of the Rotax installation kit. These engines features electric start, 22 amp alternator, carb, intake manifold, oil cooler, etc. The engine is available in a kit or can be purchased assembled and test run for an additional \$950.

The most popular engine kits for the Avid Flyer & the Kitfox are:
