

DOUBLE EAGLE VW POWER!

If you are building Leonard Millholland's Double Eagle - we have a few options for you. Builders have been using either the 1915cc or the 2180/2276cc engines.

We have even made a new Accessory Package #8 for you! Plus, you can use our Oil Pump Secondary - Accessory Package #7 - for optional dual ignition!

The most popular Engine Options for the Double Eagle are:

| | |
|--|------------------|
| 2180cc or 2276cc Direct Drive Engine Kit | \$4295.00 |
| Accessory Package #8 | <u>\$1240.50</u> |

| Zenith 1821 Carb | \$430.09 |
| Engine Assembly & Crating | \$550.00 |

KR1, KR2 & KR2S VW POWER!

We can power your KR! This popular aircraft has been around for years and has quite a following. The KR Family has it's own fly-in each September! The photo to the right is Jim Faughn's KR2 - which our owner is now flying. We can assist with your decision for your KR - just give us a call. You decide if you want it as a kit or assembled. Plus single or dual ignition. We also carry Engine Mounts, Exhaust Systems, Intake System and a 10" Spinner Kit for the KR!

The most popular Engine Option for the KR:

| | |
|--|------------------|
